

Office of Foreign Assets Control Data Source

Do Not Pay Portal Quick Reference Card

Frequently Asked Questions

What is OFAC?

The Office of Foreign Assets Control (OFAC) of the Department of the Treasury is responsible for the administration and enforcement of economic and trade sanctions against countries and groups that pose a potential threat to the national security, foreign policy, or economy of the United States.

What is in OFAC Data Source?

As part of its enforcement efforts, OFAC publishes a list of individuals and companies owned or controlled by, or acting for or on behalf of targeted countries. It also lists individuals, groups, and entities, such as terrorists and narcotics traffickers designated under programs that are not country-specific. Collectively, such individuals and companies are called "Specially Designated Nationals (SDN)." Their assets are blocked and U.S. persons are generally prohibited from doing business with them.

What transactions are prohibited by OFAC?

Financial transactions and other dealings are prohibited with sanctioned or embargoed regions and governments. If needed, refer to the OFAC website in order to see which regions and governments have prohibited transactions and the details of these prohibitions.

Is there a cost for using OFAC?

No. OFAC is available at no cost to agencies enrolled in the Do Not Pay (DNP) Portal.

How does using this data source help my agency?

Using OFAC through the DNP Portal or Fraud Prevention and Financial Integrity (FPFI) Analytics will help an agency comply with OFAC regulations and ensure payments comply with OFAC regulations. Note that OFAC does not contain Taxpayer Identification Number (TIN) nor Unique Entity Identifier (UEI) information. Therefore, any Online Search using only TIN or UEI will not provide an OFAC match.

How do I gain access to OFAC in the DNP Portal?

Agencies must apply and be approved to access OFAC in the DNP Portal. Contact your FPFI Agency Lead or Agency Specialist for more information.

For which modules is OFAC available in the DNP Portal?

The OFAC database is available in Online Search, Batch Matching, Continuous Monitoring, and Application Programming Interface (API).

What do I do if I find a match in OFAC?

Your agency has its own internal controls to follow. Also consult the OFAC website for more information on how to validate a match along with the reporting requirements.

How frequently is OFAC updated within the DNP Portal?

Updates for the OFAC database occur on a daily basis.
