## Do Not Pay Portal Quick Reference Card

### Frequently Asked Questions

#### What is CAIVRS?

CAIVRS was developed by the Department of Housing and Urban Development in June 1987 as a shared database of defaulted federal debtors, and enables processors of applications for federal credit benefits to identify individuals who are in default or have had claims paid on direct or guaranteed federal loans, or are delinquent on other debts owed to federal agencies.

#### How is CAIVRS used?

CAIVRS is used to prescreen and verify the eligibility of applicants of federal direct or guaranteed loans. Agencies use CAIVRS to determine if a loan applicant has:

- Defaulted on any federal debts or obligations
- Had claims paid on direct or guaranteed federal loans
- Had a federal lien, judgment or federal loan that is currently in default or foreclosure
- Had a claim paid by a reporting agency within the last three years

#### Which federal agencies currently send delinquency data?

- Department of Housing and Urban Development (HUD)
- Department of Veterans Affairs (VA)
- Department of Agriculture (USDA)
- Small Business Administration (SBA)
- Department of Justice (DOJ)

#### How do I gain access to CAIVRS through the DNP Portal?

To initiate the enrollment process, send an email to [FPIOutreach@fiscal.treasury.gov](mailto:FPIOutreach@fiscal.treasury.gov).

#### Do I need to use CAIVRS?

Yes, the Payment Integrity Information Act of 2019 (PIIA) identifies CAIVRS as one of the databases to be used in the DNP Initiative to determine applicant eligibility before issuing any payment or award prior to disbursing federal funds or federally guaranteed funds.

#### What DNP Portal functions match against CAIVRS?

CAIVRS is available through the Online Search, Batch Matching, Continuous Monitoring, and Application Programming Interface (API) functions in the DNP Portal.

#### What information does CAIVRS contain?

The following chart lists the data elements that are sent from each reporting agency. (See page 2 for descriptions of these fields.)

#### How frequently is CAIVRS updated within the Portal?

The DNP Portal refreshes the entire CAIVRS database each time any agency source forwards an update. The agency sources provide updated data at various points throughout the month.

#### How has the DNP Portal made using CAIVRS easier for agency users?

The two-digit code identifying the reporting agency has been replaced by the name of the agency; the type of case is now spelled out, instead of abbreviated with the first letter; and new reporting agencies continue to be added.
