[1]Note: RDM has ended production of all check scanners (EC7000i, EC9100i, EC9600i and EC9700i series. Models include the EC7011f, EC9111f, EC9611f, EC9603, and EC9703). Warranty terms will be honored for two years after original purchase. Post warranty repairs will be supported while replacement parts continue to be available. Current OTCnet firmware versions will continue to support RDM check scanners.

[2]Production of the Panini I:Deal check scanner has ended. Warranty and post-warranty support available through 12/31/25.

How to Purchase

There are two options for purchasing scanners or additional scanner equipment:

1. **Interagency Agreement (IAA):** Complete an IAA form to transfer funding for hardware from your agency via G-Invoicing, and have the OTC Deployment Team purchase the hardware on your behalf. To purchase using an IAA or to find out more about the process, contact the OTCnet Deployment Team. Once the IAA is approved by Fiscal Service, the hardware will be shipped at no cost to the agency for all domestic and APO/FPO locations.

2. **Agency Purchase Card:** To place an order for immediate shipment, use your agency purchase card to purchase the hardware directly from the vendor. For both Cennox and RDM orders, email the RDM POC below to receive the password required to access the agency-specific portal, then order directly from (https://scanners.usg.deluxe.com/password). To order from Cennox (Panini scanners), there is an additional option to email the Cennox POC below with the appropriate order form attached (available upon request from the OTCnet Deployment team.)
