Void a Check in OTCnet Offline

To void a scanned check, complete the following steps:

1. From the **Check Processing** tab, click **Batch Management**. The Search Batch page appears.

2. Select or enter the batch search conditions you would like view.

> Under **Batch Search Conditions**, *optional*

- Select the **OTC Endpoint** you want to **Edit** a batch for by checking the under the **Select** column

> Under **Created On Date**, *optional*

- Enter the **From** and **To** date range

Application Tips

- The **From** and **To Created On Date** must be entered in MM/DD/YYYY format.
- The **Created On Date** range cannot exceed 30 days. Additionally, if more than a 1,000 batches are created within 30 days, then only the most recent 1,000 batches appear.
- If you run a search with the default **From** and To **Created On Date** range values, the search results include the most recent 30 days of batches that you have access to view. If more than 1,000 batches are created within the 30 days, then only the most recent 1,000 batches appear.
- If you run a search **without** specifying any criterion (with the exception of the **Batch ID** field), the search results include the most recent 30 days of batches that you have access to view. If more than 1,000 batches are created within 30 days, then only the most recent 1,000 batches appear.

- Enter the **Batch ID**, *optional*

Application Tip

If the only search criteria entered is a valid Batch ID, then only a single result appears regardless of other search criteria specified.

- Enter the **Cashier ID**, *optional*

> Under **Batch Status**, *optional*

- Select the **Status** you want to view by checking the **Open** or **Closed** box under the **Select** column

3. Click **Search**. The *View Batch* page appears.

4. Click the **Batch ID hyperlink**. The *View Checks* page appears.

5. Click the Item ID of the scanned check you would like to void. An image and details of the check appear in the window.

6. Click **Void** to the right of the check image to void the check as shown in Figure 1.

Figure 1. Check Image/ Details

💡 **Application Tips**

- If a check is voided and there is more than one check in the batch, and the Agency Location Code (ALC) is designated to classify at the summary level, ensure that the combined accounting code subtotal is equal to the batch total prior to batch approval. If it does not, you must go back and re-validate your subtotal entries.
- If a check is voided and there is only one check in the batch, as a best practice it is recommended that the batch is deactivated so that it is not accidently forwarded for settlement. Deactivated batches will still be archived to the Historical Database.

7. Click **Confirm** at the prompt.

8. Enter comments concerning the void request at the prompt. Click **OK**.

9. Click **OK** at the final prompt stating that the check is voided successfully.
